

Junior A Community Nationals 2010

Just like the Teenies the Junior A team had a tall order as well. The team had to overcome a couple of last minute changes which meant that parts of the dance, the cheer and the chant were changed with one week to go.

Although learning changes in one session is not that difficult, remembering that change and ensuring that you can translate such changes to a confident performance is not as easy as it sounds

Yes these are Junior A, yes they are older but they are children, some of which had not danced before June 2009.

This team are sure to go on to better things:

"They are exceptional for their age, well mannered, polite, and best of all, GREAT DANCERS and I honestly believe that they will be one of the the best teams at community level and with a bit more effort who knows possibly even Club or Nationals one day"
